August 30, 2025

Dear CK Parents:

Shortly after the tragedy at Annunciation Catholic Church in Minneapolis unfolded, a leadership and security team at CK met to discuss changes needed for school Mass. While we regret having to put any limits on family members attending school Mass with their children, we feel that the protocol below will help us with knowing, understanding, and vetting who attends school Mass each week. These changes will institute an orderly process for parents to enter the atrium, check in, and wait for their children.

Know that the safety of the students at CK is top priority for us. We have applied for a security grant, which would allow us to make some significant security improvements to the school and church campus. Further, we have secured additional security personnel for all large events at CK for the 2025-2026 school year. I have requested that after-hours officers arrive early to help monitor carpool proceedings. Deputy Fig conducts regular safety trainings for the staff, and all teachers participated in a safety briefing conducted by Page Houser and Detective Wes Cadena before school started. You may notice some other physical changes around campus that have been made for safety purposes. Each school shooting brings new information and circumstances to which we must adapt and prepare for.

We are very fortunate to have a full-time SRO officer on campus, as well as an officer here for Kids Club. We have cameras all over campus. All exterior doors and gates are locked, and teachers teach with internal doors locked. The entire staff is equipped with the RAVE app, for which communication regarding an emergency is sent to all staff, including local first responders. Each classroom teacher has a walkie-talkie, which has proven to be extremely valuable for quick communication. The school has a panic button that closes all fire doors and alerts proper authorities.

We have made many investments in security over the years, and will continue to do so for the safety of all at CK. We ask for your help and vigilance in keeping the campus secure. **If in the school building, please do not open the door for anyone.** If you see something suspicious, let the office know immediately. It takes a village, and we have the best village on the planet.

### **New Protocol for School Mass:**

- Families must RSVP for attendance at school Mass by 1:00 p.m. the day before (this would usually be on Weds); RSVP using this link:  
<https://forms.gle/6KBFLgoy7szqqch98>
- One east door in the atrium will be unlocked for parents to enter beginning at 7:45 a.m.;
- An administrator or staff member will be at the welcome desk to check your name off the RSVP list and give you a green visitor sticker;
- After check-in, visitors must wait for students by the stairs leading to the church in the foyer;
- The atrium (& all) doors will be locked at the start of Mass at 8:15; nobody will be allowed in after that time.

### **Safety Protocols Already in Place:**

- An SRO officer present during school Mass;
- All teachers equipped with walkie talkies and red emergency bags (including contact list of parents);
- Church doors locked;
- School Mass time is not listed on the website or church bulletin;
- School Mass is closed to the public.

We will continue to evaluate the situation and adapt as needed. Thank you for your cooperation with our new protocol.

Sincerely,

Jenny Richard, PhD

Principal

## **SPECIAL ANNOUNCEMENT!!**

As announced during Meet the Teacher/Curriculum Night, CK will no longer allow birthday treats to be brought to school for grades K-8th (effective September 2, 2025). This is in an effort to reduce sugary treats during the school day and promote student wellness. Instead, all students will enjoy a special dress-out day during their birthday month. Know that each morning, students' birthdays are read over announcements, Fr. Rex gives a special birthday blessing during Knights Assembled each month, and teachers will make efforts so that students enjoy a special status on their actual birthday. Birthday dress-out days are as follows:

Wednesday, September 24, 2025

Wednesday, October 29, 2025

Wednesday, November 12, 2025

**NEW EPISODE!**

**CK NEWS**

Click the photo above to watch!

Dear Parents,

We were recently asked to clarify a finger scanning process utilized in the cafeteria to pull student accounts. We want to take this time to reinforce that the system does not store fingerprint scans, nor is the software data shared with any third parties. Nonetheless, should any patron be concerned with the scanning process, we are happy to utilize the name-search method for your CK student.

To accurately identify cafeteria accounts for students in 3<sup>rd</sup> grade and older, we utilize fingerprint scanning whenever possible. This method helps ensure that students are not sharing account PIN information or cross-charging by accident. The identification and matching process is extremely fast, secure and accurate.

The finger scanning one-time enrollment process works as follows:

- The student scans their index finger three times.
- The computer software develops a grid of intersection points from the ridges and valleys of the scanned image.
- Only specific characteristics, which are unique to every fingerprint, are filtered and saved.
- These specific characteristics are converted to a binary number, which is a series of zeros and ones.
- The binary number is stored in the database as the encrypted key. This data can't be reverse engineered to create a fingerprint.
- No fingerprint image is stored.
- The scanning software and encrypted data is stored on the cafeteria hard drive and not shared with the software developer nor any third party.

Once the student completes the enrollment process, they can use their finger as the method of account identification when receiving meals and a la carte items from our cafeteria. When the student goes through the line, they scan their finger and the system again builds the specific characteristics from the ridges and valleys of the scanned image. These specific characteristics are converted to a binary number, encrypted and used to search against the encrypted keys in the database to determine a match.

The finger scanning program software was developed by Focal Tech, Inc. of State College, PA. Focal Tech is also the developer of the LunchTime School Lunch Software System which is the cafeteria point of sale system we have implemented in conjunction with the finger scanning program. You can visit the Focal Tech corporate site at <http://www.focaltechinc.com> and the LunchTime product website at <http://www.lunchtimesoftware.com>.

If you have any questions regarding the process we have implemented, please do not hesitate to ask. If you have concerns with the process and wish to an alternate account look-up method, please let the school office know as soon as possible.

Thank you,  
Benchmark Food Group
